

PESA Committees: Opportunities for Leadership & Engagement

The mission of PESA is to serve as the go-to resource for the service and supply sector, advancing member priorities on key industry issues. PESA Committees manage a range of programs designed to educate, empower and elevate sector professionals and collective member companies. Active engagement with PESA committees is an opportunity for professionals at all levels and their companies to show leadership, network with other industry leaders, and gain recognition for helping improve the industry.

Emerging Leaders Committee – prepares high performing individuals for their role as the next generation of industry leaders. The Committee develops and carries out their own agenda of events and training seminars, including Leadership Forums, the Executive Leadership Year-Long Program, and the Executive Address Series.

HSE Committee – focuses throughout the year on legislation or regulations that impact PESA member companies and/or their customers in the areas of health, safety and environment. This committee may also work on independent research projects for publication by PESA.

Human Resources Committee – holds bi-monthly roundtable events to educate PESA member companies on the various trends affecting global HR departments and hiring practices. The committee promotes PESA training opportunities within member companies.

Supply Chain Committee – addresses timely issues affecting PESA members supply chain activities and communicates best practices. This committee plans seminars on industry trends and issues, with a focus on providing opportunities for PESA members to learn best practices from customers.

Energy Educators Committee – works with the PESA staff to coordinate various educational initiatives and contributions, including support of the IPAA/PESA Energy Education Center and promote STEM education at elementary, secondary and undergraduate levels. The Committee sponsors fundraising activities to raise funds for these efforts.

Participating Companies: AFGlobal, Cameron (SLB), Caterpillar Oil & Gas, DistributionNOW, Ellwood Oil & Gas, FairfieldNodal, Forged Products, Forsys Subsea (FMC), Gardner Denver, GE Oil & Gas, Halliburton, Li Gear, LoneStar Group, National Oilwell Varco, Oceaneering, OFS Energy Fund, Oil States International, R.A.K.I. Computers, Schlumberger, Simmons & Company, TETRA Technologies, Wells Fargo Energy Group

Participating Companies: Baker Hughes, FairfieldNodal, Halliburton, Hoover, M-I SWACO (SLB), Newpark Resources, PwC, R.A.K.I. Computers, Rings Gloves, Stream-Flo, Weir Oil & Gas

Participating Companies: DistributionNOW, GE Oil & Gas, Halliburton, GulfMark, Oceaneering, Oil States International, PwC, Schlumberger, TechnipFMC, TETRA Technologies, Weir Oil & Gas

Participating Companies: Cummins, DistributionNOW, Ellwood Group, Forged Products, Forum, Galtway Industries, Gardner Denver, Hoover Container Solutions, Key Energy Services, M&M Forgings, NOV, Oceaneering, OFS Portal, Premier Pipe, PWC, R.A.K.I. Computers, Sigma Fasteners, TechnipFMC, TETRA Technologies, Weir Oil & Gas

PESA Committees Continued

Legal Committee – offers special educational programs on the diverse range of topics of interest to the legal, risk management, and compliance departments of PESA member companies. Advises PESA Staff on legal issues.

Membership Committee – works with PESA staff, Directors, and members to develop and carry out a membership strategy focused on identifying and recruiting new PESA members.

CID Operating Committee – made up of current users of PESA's Credit Interchange Division (CID) credit database and network, this Committee works with PESA staff to oversee the operations of CID and its outside service provider.

International Programs Committee – oversees the Foreign Service Officer Training Program and international PESA outpost activities. PESA member companies, E&P companies and academic organizations develop a comprehensive FSO training curriculum and delegate company participation for individual training sessions.

The **International Outposts Subcommittee** collaborates on strategies to support PESA Members through chapter meetings in targeted global locations.

The **Mexico Task Force** delivers value to PESA members by providing connections with both US/MX stakeholders.

The **Engagement Committee** promotes diversity within PESA culture and in the industry. The committee collaborates on ways to strategically place qualified women and people of color in PESA leadership positions.

Policy Committee – works with PESA staff to advance education-based advocacy on legislative and regulatory issues that impact PESA members and customers at state and federal levels. Additionally, the **Government Affairs Subcommittee** establishes relationships with elected officials and their staff to expand the reach and influence of the service, supply and manufacturing sector message. This group also convenes executives for congressional dialogues and other local events designed to engage and educate policymakers.

The **International Trade Policy Subcommittee** monitors ongoing policies and regulations affecting the oilfield service and supply sector and recommends appropriate response on behalf of PESA membership.
